**REASONS FOR ALLOWANCE** 

The following is an Examiner's Statement of Reasons for Allowance:

The applicant's amendment filed 7/10/07 overcomes the technical deficiencies and the prior art rejection. Claims 1 and 3-10 are allowed because the prior art of record fails to suggest "a phase comparator which compares the phase of the rising edge of *the reference signal* generated by the reference signal generating section with the phase of the output signal from the voltage comparator" as combined in claims 1 and 10. In particular, the phase comparator (11) of Abe Yoshitaka (JP 2000175447) of record compares the output signal of the comparator (12) and an *output clock ECK*, not the reference signal generated by the reference generating section as claimed.

**CONCLUSION** 

Any comments considered necessarily by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DINH T. LE whose telephone number is (571) 272-1745. The examiner can normally be reached on Monday-Friday (8AM-7PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Drew N. Richards, can be reached at (571) 272-1736.
